

TRICAN'S NEW GENERATION TWIN CEMENT PUMPER

- Automatic Density Control capabilities
 - ▲ Able to pre-program 3 different densities
 - ▲ Self-adjusting density control
- High energy mixing system
 - ▲ Closed chamber recirculating mixing
 - ▲ Ground mixing
- True twin – redundant mixing, pressurizing and pumping systems
- Computerized data acquisition and recording
- 1 m³ recirculating mixing tub
- Twin 525 HP Cummins diesel engines
- Twin triplex pumps
- Mixing rates up to 2.0 m³/minute
- Twin hydraulically powered Mission Sandmaster mixing pumps
- Endress & Hauser density and flow measurement
- Heated, enclosed operator's cabin
- Twin 2.5 m³ displacement tanks with paddle type fluid agitators
